you : tech	нс ng lived say is th	endy Kang DE @ University I in Seattle, ne biggest d nies betwee ia?	what wou ifference	ld in		
like you dealing Amazo these c and str In Silico startup	Stanislav Kirdey - Mentor Software Engineer @ Netflix In Seattle, you have large corporations where you can feel like you're working in a startup with a lot of independence dealing with highly popular and critical services such as Amazon AWS, Microsoft Azure, and so on. The drawback of these corporations is that you have an already developed and structured product. In Silicon Valley and LA, by having a higher concentration of startups, you get to have independence and work on innovating new ideas and products.					
You sa higher innovat	you for this r id that Cali a presence of	ersity of Washington response - I just ha allows for more inno startups. Do you th exists for large Silic	ovation because hink that same t	e of the type of
